ASSIGNMENT:

*** HW_12 [Due: 11 Aug 2026] LAST ONE!!

--- Task 1

Read Chapter 13, Chapter 14, Chapter 15, and Chapter 16 of "Bless Me, Ultima." Select and answer three (3) questions from the list of questions for each chapter. The questions can be found in the document, "UTECA_StudyGuide_Bless-Me-Ultima.txt. Be sure to format your answers correctly (see Marron_English-IX-StyleGuide.pdf).

--- Task 2

Review Lamadrid's paper, ""Myth as the Cognitive Process of Popular Culture in Rudolfo Anaya's Bless Me, Ultima: The Dialectics of Knowledge" and answer the following questions:

1. What is the problem statement of the paper?

2. What is Lamadrid's thesis?

3. According to Lamadrid, what is Ultima's (and Tony's) actual role in the community?

--- Task 3

Begin work on the Final Exam. The final exam is a take-home exam consisting of a written critique of the novel, "Bless Me, Ultima". All of the requirements for this critique can be found in the attached document, "FinalExam_Marron_Ingles-IX.pdf". The final exam is a take-home exam and will be officially due on August 18, 2026.

--- Study Guide for Exam 3P (an open-book exam)

T1

*Why are LLMs called "large language models"?

*What is a perceptron and how (basically) does it function?

*What is it that LLMs actually do?

*Explain i) the nature of an API, and ii) the nature of Python.

*Why shouldn't AI agents be anthropomorphized?

*What is Humanity's Last Exam and why is it important?

T2

*Access to cloud-based LLM translation is typically done through an Application Programmer Interface (API) using Python. Briefly explain i) the nature of an API, and ii) the nature of Python.

*Briefly explain the concept of prompt engineering.

*Select either BLEU or METEOR and briefly explain how the metric works.

- Bilingual evaluation understudy (BLEU) metric (uses n-gram comparisons)

- Metric for evaluation of translation with explicit ordering (METEOR)
(uses n-grams, synonymy, stemming, word order)

T3

*What is meant by the term "vibe coding" and explain how this is rapidly changing the world of professional coding.

*How might you use "vibe coding" in the future?

T4

*What is meant by the term alignment and why must AI agents be aligned?

*What is meant by the term, "emergent property" and why might emergent properties be worrisome?

*List three important take-aways from the AI Futures Project report, "AI 2027"

*Klein notes that Anthropic had "redlines" for the use of their AI systems (no surveillance of citizens; no AI-powered kill munitions) that the U.S. Pentagon wanted to bypass. Because the Pentagon fired Anthropic, what does this suggest to you about the current intentions of the national security state in the U.S.?

*Richard David Hames offers perhaps fantastical possibilities for positive interactions between AI and humans. List one important take-away from his opinion piece.

T5

*Provide the question and the answer to one (1) question each from Chapters 4 - 8 of "Bless Me, Ultima" (i.e., Qs and As for five questions)
