Study Guide Exam 2P [DO NOT turn in as homework]

1. Be able to evaluate your experience with coding

- * How would you evaluate or characterize the Python language?
- * Did you find using the command-line for computer-based tasks helpful or burdensome?
- * How far did you get in the sequence of homework tasks (Install Python? Install Spyder? Get an API key? Setup a virtual environment? Install SDKs for Google and OpenAI? Install the Natural Language Toolkit (NLTK)? Run a simple query using Gemini 2.5 Flash or GPT-5? Obtain an AI-based translation from .txt or .pdf file? Run a comparative analysis of translation quality using a METEOR score using the NLTK?)
- * Give two reasons why API-based access to AI agents is more powerful than simple queries to public agents like ChatGPT.

2. Be able to evaluate your experience with creative writing

- * Do you enjoy creative writing (i.e., writing stories, poems, song lyrics, dialog for plays, etc.)?
- * Of the pieces you wrote for class which was your favorite? Explain why.
