

Final Exam

Course Title: **Terminología Especializada en Tecnología Inglés-Español**
Course ID: **IT0627 (Marron), 26-1**
Cohort ID: **6.2**
Exam Date: **16 Dec 2025**

General Instructions: This is a **take home exam**. Please do your own work. Remember, academic integrity is always your choice.

This Final Exam consists solely of reading, understanding and translating portions of a scientific paper. The article, “The first emergence of unprecedented global water scarcity in the Anthropocene” was published by Ravinandrasana and Franzke in *Nature Communications* in 2025.¹ A copy of this article is attached to this assignment. This article will form the basis for your Final Exam. You will perform the following tasks:

1. *Skim and Read* -- Skim through the entire paper. Read i) the Abstract (p.1); ii) the Introduction (p. 1-2), iii) Results: Emergence of multi-year drought due to anthropogenic global warming (p. 2-3); iv) Results: Adaptation pathways and policy implications (p.6-7); and v) Discussion (p. 8).
2. *Translate* – Translate the Abstract into Spanish.
3. *Summarize* – Write a short summary of the main results and conclusions.
4. *Extract* – Pull out what you think is/are the main takeaway(s) from the article
5. *Define* – List and define five (5) new vocabulary words

Follow the outline below for the submittal of your Final Exam document. Your Final Exam will be **officially due in hard copy format on Tuesday, December 16, 2025 in Room 201 during our scheduled exam time at UTECA**. You are welcome to turn in your Final Exam anytime before the deadline.

Thanks for a great term!

Specific Instructions: You will fulfill the tasks above by submitting a Final Exam document. The Final Exam document must be formatted per Marron’s Style Guide and organized per task. Follow the template below (exactly!) to organize your Final Exam document.

¹ Ravinandrasana, V. P., & Franzke, C. L. (2025). The first emergence of unprecedented global water scarcity in the Anthropocene. *Nature Communications*, 16(1), 8281.
